THE CONSCIENCE OF A HACKER

"This is our world now... the world of the electron and the switch, the beauty of the baud. We make use of a service already existing without paying for what could be dirt-cheap if it wasn't run by profiteering gluttons, and you call us criminals. We explore... and you call us criminals. We seek after knowledge... and you call us criminals. We exist without skin color, without nationality, without religious bias... and you call us criminals. You build atomic bombs, you wage wars, you murder, cheat, and lie to us and try to make us believe it's for our own good, yet we're the criminals.

Yes, I am a criminal. My crime is that of curiosity. My crime is that of judging people by what they say and think, not what they look like. My crime is that of outsmarting you, something that you will never forgive me for."

- The Mentor, January 8, 1986

BLACK FLAG (1981)

RISE ABOVE

Society's arms of control

Rise above! We're gonna rise above!

Think they're smart; can't think for themselves

Rise above! We're gonna rise above!

Laugh at us behind our backs

Rise above! We're gonna rise above!

I find satisfaction in what they lack

Rise above! We're gonna rise above!

We are tired of your abuse

Try to stop us; but it's no use!

FAMILY TREE

I was thinking about the good old times
And all the people who helped me survive
Now who the hell knows where I'd be
Without the branches of my family tree

I was thinking about the friends who cared
And all the times that we shared
And if I had the strength to be what I could be
Love and respect to the branches of my tree

YIPL

FIGHT BACK! NO.13

SEPT.-OCT.'72

THE YOUTH INTERNATIONAL
PARTY LINE

READERS

Dear Yipl,
Please distribute this little gem of info immediately- "The National Security Agency monitors and records every trans-Atlantic telephone call." Source- Rampart's Aug. '72. Also- "Of course, all trans-Atlantic and trans-Pacific Telephone calls to or from the U.S. are tapped."

I don't know if the NSA would pass info on to the FBI about phone phreaks, but its certainly conceivable that they may.

It seems IIT is pushing Astrofood to school kids through a subsidiary, Continental Baking. I think we need to find out just how much IIT controls. If I get the time I'll go to MLP&Fs and check Standard & Poors to see if I can get the scope of operations of this giant. J.R., Atlanta, Ga.

Dear YIPL,
Just a note to give you a few comments on the August issue(No. 12).

First, the Red Box: you might note that it is also important to provide a contact and make the line connections which will ground the tip side of the line when you beep the box. When a coin is placed in a pay phone, the mechanism grounds the tip side for about 1 second; this is what gets you dial tone on a so-called pre-pay phone. Then, when dealing with the operator for longer calls, the beeps tell her that you've paid, but it will look a little funny if the equipment doesn't register the dropping of coins. Both are necessary for a realistic simulation.

(The terms "tip" and "ring"(also "sleeve") come from the old manual switchboard days and describe the connections on a cord plug. These archaic terms are still used today: the tip side is the green wire and L1 if things are hooked up properly; the ring side of the line is the red wire and L2.)

Second: I have constructed several Blue Boxes using the Signetics NE 566 IC. I do not recommend it for several reasons: 1. It is designed to be a voltage-controlled oscillator and is very good in this role. It is so damned voltage sensitive that it needs a very stable, rock solid battery supply. Even with a zener regulator after the battery, which is getting rather silly, it is no good because of 2. its temperature sensitivity. Using mylar caps and megal-film resistors I got an 8% variation between 35°F. and 90°F., which means you have to re-tune the thing all the time. Finally, diode variations lead to unreal differences between tones that should be the same frequency. Best Wishes, T.V., Calif.

Many telephone services at your fingertips simply require the correct number to perform for you. These New York numbers all work in areas of N.Y., and many out-of-city and out-of-state readers will find they work in their neighborhood. We'll publish Los Angeles and San Francisco numbers if we receive them soon.

AREA CODE 212
324-0707 Sweep tone at high level. When comparing an oscilloscope trace of this tone to another made at an earlier date, detection of taps is possible.
DE2

HY9 9932 Silent line-Line will be held open while Tw1 off hook without making noise.
XXX-9980 Dial your prefix(first 3 digits) and 9980 and you will get a 6000 cycle tone. It has a slight tendency toward being permanent, unless the phone hook is hit twice.
311

958 These numbers,when dialed, read back the number you are on. Great in apartment basements for finding your line, or unused free lines waiting to be connected.

660(wait for tone)09(wait)6(hang up)
660-your last 4 digits(wait)1(hang up) RING BACK
6606(wait)6(hang up)
Prefix-9901 Verification. Sound like Telco employee. or dial 0,ask for "260 official 0-1" and get the same without even paying a message unit. By the way, don't use 260, use your own prefix. When verifying operator comes on say,"Verify such and such please."

New Yorkers are up in arms against the Great Subway Ripoff. It seems people are buying the standard electrical knockout boxes at hardware stores, removing the knockouts, and then filing down the notch where it was attached. Then they proceed to use them as tokens in turnstiles. It turns out that they work in turnstiles almost anywhere in N.Y. Exceptions are Penn Station. If the knockout falls through the mechanism, they follow it with a real token and walk right through. The 40¢ boxes contain 17 knockouts, each worth 35¢ when filed a bit. YIPL readers are urged to watch out for these people, as they wipe their fingerprints off the slugs when they drop them.

Readers who missed the Phirst International PHONE PHREAK CONVENTION will be able to read about it in the latest issue of Ramparts Magazine, and in Telephony, the magazine of the telephone industry. The Telephony article, though somewhat biased, plugged our address for company execs, advising them not to reveal identities when writing us. Cute, huh? Now we've got AT&T's execs reading YIPL! However, we applaud Telephony on the ridiculous accuracy of their name, and salute their new readers with finger upheld!

BONDS OF FRIENDSHIP

SHELTER (1990)

PHOTOGRAPHS LIE

As I admire the smiles on the people in the photo

I think "What am I missing this time?"

I'm always racing, chasing, someone, somewhere

That isn't mine

Thinking that the grass is greener on the other side

Thinking that in your shoes I'll be satisfied

First admiration, then contemplation

Tricking my mind...

Cause I know that photographs lie

SUPPORT EACH OTHER

YOUTH OF TODAY (1986)

BREAK DOWN THE WALLS

I used to think that labels were just symbols of pride
But over time I've seen they only serve to divide
It's so easy to judge people by the way they seem to be
We must overcome this problem to live life peacefully

Look beyond the fashion or the crowd that they are in
Look beyond their riches or the color of their skin
Look beyond appearance and the truth you will find
Look for what's inside before you make up your mind

YOUTH OF TODAY

BREAK DOWN THE WALLS

YOUTH OF TODAY (1990)

ENVY

Constant competition and

Criticism between friends

We'll bite and fight with our might

Until we win in the end

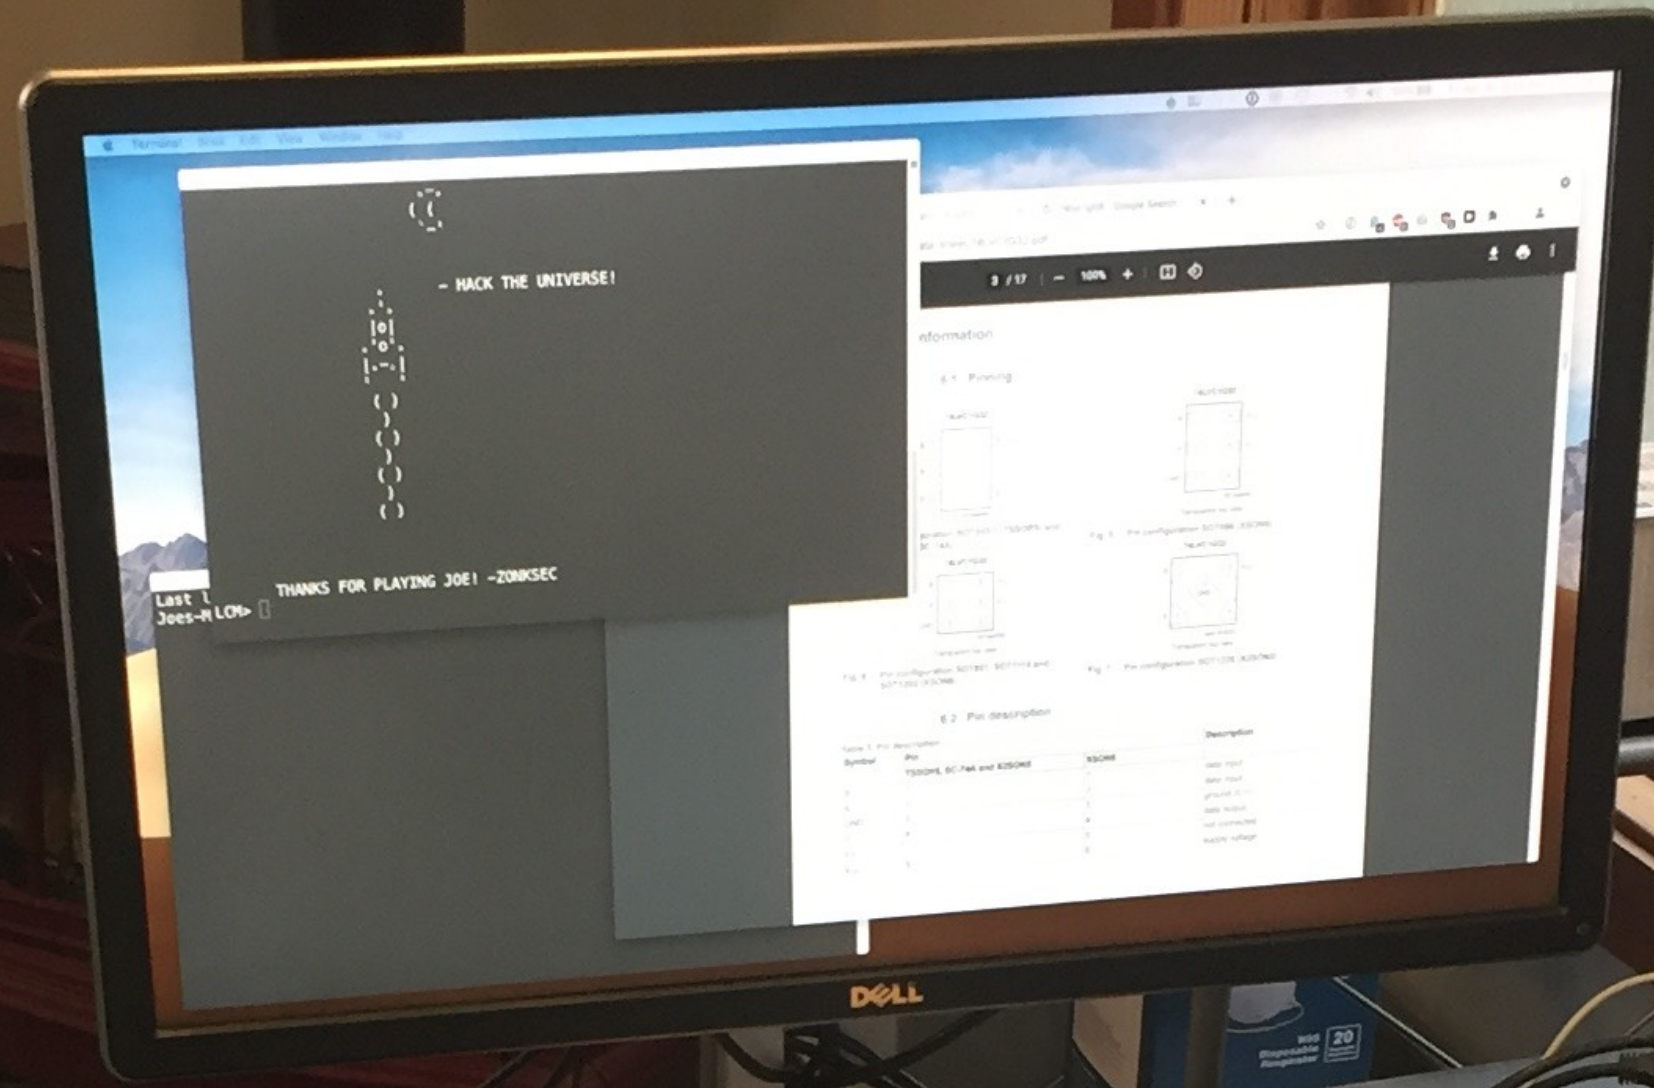

I've got one up on you

You've got one up on me

Overlooking each other's worthy qualities

DON'T GIVE UP

BOLD (1988)

ALWAYS TRY

Trying to do better constantly

Sometimes it may be hard to see

People always stopping to ask me why

While they just stand by

No one's perfect no one's always right

What's important is to keep your goals in sight

It's what's important and vital in life

To try to see the light

Always try!
